

## Industry expertise automation 4.0 by Création Durable

Création Durable offers individually customized solutions in the areas of corporate development, engineering and marketing for intelligent manipulators, mechanical engineering and plant construction.

We also support you in due diligence projects and feasibility studies. Based on this, Création Durable develops marketing strategies and business plans and supports you in the realization of your project. Création Durable also supports you in product development from the first applications through to technical approvals and provides you with market and sales studies to assist you in making your product range decisions. The package also includes Training courses on technology, products and sales topics.

In addition, we develop financing and cost accounting models, as well as approaches for supply chain and innovation management. We also provide support in the areas of human resources, quality assurance, safety and environmental management.
